

Connecting your Amino Kamai 650 Set Top Box (STB) to your TV. REV 0 02/12/2019

Connect the STB to your TV using one of the options below.

Better - Analog AV cable

Composite Non HD Video/Audio.

Connect the specialized cable end to the AV output of the STB and the other ends to your TV using composite in on your TV. This will require that your TV to be set to a video input of Video or other input in order to view programming (consult your TV manual).

Best - HDMI Cable

Digital Video and audio HD delivery. Connect one end of the HDMI cable to the HDMI port on the STB and the other to your TV. This will require that your TV to be set to a video input of HDMI in order to view programming (consult your TV manual).

Connect the included power cord to the power supply port on the STB and the other end to a working electrical outlet.
